eValai®

Homeopathic
Hospital Management Software

PROPOSAL

COVER NOTE

Greetings,

We take immense pleasure in sending this proposal to your esteemed institution. Evalai has been serving educational institutions for more than a decade with administration process automations, ERP, CRM, mobile apps and other tailor made solutions using latest cutting edge technologies.

Evalai Homeopathic Hospital Management Software is a specialized software capable of handling all aspects of your hospital's daily operations with ease. This software is designed to empower even those who are not so good in handling a computer or internet. Only the basic knowledge would be sufficient to operate the software and perform their daily tasks. As in for those with advanced computer skills or tech savvy's, this software comes with loads of advanced options as well.

After you start using this software:

All your operations / data will be digitalized and centralized!
OPD / IPD will start functioning more efficiently!
Your staff's work load will become drastically less!
Monitoring the whole activities & reports becomes faster and easier!
You will be **INSPECTION READY** at any given point of time!

We request you to kindly grant us an opportunity to demonstrate how this easy to use and effective software can help your institution to become more organized and technologically advanced.

Thanks & Regards,

Suraj K Madhavan
Chief Marketing Officer
